

[2017 News100% Valid 200-155 PDF and VCE Exam Dumps 98Q Provided by Braindump2go[41-50]

2017 July CISCO 200-155 Exam Dumps with PDF and VCE New Updated in www.Braindump2go.com Today!100% Real Exam Questions! 100% Exam Pass Guaranteed! 1.|2017 New 200-155 Exam Dumps (PDF & VCE) 98Q&As Download: <https://www.braindump2go.com/200-155.html> 2.|2017 New 200-155 Exam Questions & Answers Download: <https://drive.google.com/drive/folders/0B75b5xYLjSSNSGNZNWIETXdsNHM?usp=sharing>

QUESTION 41The ARC is responsible for which two processes? (Choose two) A. network policy configurationB. fabric segmentationC. BGP end-node emulationD. ISL blocking per STP implementationE. switch firmware management Answer: AD QUESTION 42A network design engineer is asked to design a SAN (or a company Which two underlying principles of SAN design should be considered? Choose two.) A. fault isolation, consolidation while maintaining isolationB. future growth in LAN infrastructureC. security management, preferential network securityD. scalability of LAN infrastructure, reduced Ethernet QoS complexityE. short and long term port density and topology requirements Answer: AE QUESTION 43After configuring a vPC between the core Nexus 7000 and the middle of row Nexus 5548, the network administrator notices that one of the port channel interfaces is 90% utilized, while the other interface in the port channel is rarely used Further analysis reveals that the over utilized port has traffic earning from a single server that is accessing an SQL database What configuration on the Nexus 5548 will help rebalance the vPC? A. port-channel load-balance ethernet source-destination-ipB. port-channel load-balance ethernet source-destination-macC. port-channel load-balance ethernet destination-portD. port-channel load-balance ethernet source destination-port Answer: D QUESTION 44Cisco Fabric Extender Technology is based on which IEEE standard? A. 802.1BRB. 802.1AXC. 802.1ABD. 802.1BA Answer: AExplanation:802.1BA is for Audio Video bridging.802.1AX is for Link Aggregation.81.1AB is for Station and media access control connectivity discovery.FEX is based on 802.1 bridge port extension. QUESTION 45Which port is used for an interswitch connection between switches in a multihop FCoE scenario? A. N PortB. VF PortC. VN PortD. VE Port Answer: DExplanation:Two switches communicate using a virtual expansion port (VE Port) which makes an ISL, in a multihop FCoE scenario.FCoE uses virtual ports and not the node port (N Port). Virtual node ports (VN Port) are the ports on the host.VF ports are ports on a FC switch. QUESTION 46Which of the following is a virtual technology that helps create multiple route tables that function on the same physical router? A. VSSB. vPCC. VRFD. VSAN Answer: CExplanation:Virtual routing and forwarding (VRF) creates an I3 routing instance that functions on the same router.Virtual switching system (VSS) allows two switches to act as a single logical device, preferably a catalyst 6500 series switch.Virtual port channel (vPC) combines two nexus switches with 10 gig links to act as a single logical device.Virtual storage area network (VSAN) is a fabric technology which forms a collection of ports from connected fabric switches which can be partitioned into multiple VSANs. QUESTION 47Which statements are valid for a local SPAN configuration? (Choose two.) A. Source and destination interface must be on the same host B. Source and destination interfaces can be on different hostsC. Destination vEthernet interface can be on a different VLAN than the sourceD. Destination interface can be a physical portE. Destination interface cannot be a physical port Answer: AD QUESTION 48Which two options are advantages of a spine and leaf architecture? (Choose two) A. robust multipathingB. traffic that is optimized for east-west communicationC. star topologyD. traffic that is optimized for north-south communication E. exponential scalability Answer: AB QUESTION 49Which two Cisco Nexus 1000V Series Switch features exceed the functionality of the VMware vNetwork Distributed Switch? (Choose two) A. access control listsB. QoS markingC. Network vMotionD. port state migrationE. DV Port Groups Answer: AB QUESTION 50Which two are benefits of Cisco Unified Fabric? (Choose two) A. SNMPv3 strong authenticationB. reduced cablingC. zone port distributionD. consolidation of LAN and SAN over a common transportE. native AES-256 encryption of data in flight Answer: BD !!!RECOMMEND!!! 1.|2017 New 200-155 Exam Dumps (PDF & VCE) 98Q&As Download:<https://www.braindump2go.com/200-155.html> 2.|2017 New 200-155 Study Guide Video: YouTube Video: [YouTube.com/watch?v=c7ikEuPwOtE](https://www.youtube.com/watch?v=c7ikEuPwOtE)
